

Virtual event · 3rd edition

Bringing VALUE to AGROBIOMASS

WEBINAR on April 20th · 2022 # 10:00 - 12:00 CET

MATCHMAKING on May 11th · 2022 # 09:00 - 16:00 CET

This project has received funding from the European Union's Horizon H2020 research and innovation programme under Grant Agreement No. 818369

Participation
is **FREE**

Meet potential cooperation partners or technology providers in the third online event focused on how to create value from agrobiomass and side streams from food production.

Following the two previous successful events, please join us for the third edition. The event is a part of the EU-funded project AgroBioHeat which is focused on mass deployment of improved and market ready agrobiomass heating solutions in Europe.

This matchmaking is not only focused on heating, but on all beneficial uses of agrobiomass and side streams from food production in a circular bioeconomy.

WEBINAR: April 20th · 2022 # 10:00 - 12:00 CET

A presentation of the AgroBioHeat project and displaying **cases with end-users** bringing value to agrobiomass.

MATCHMAKING EVENT: May 11th · 2022 # 09:00 - 16:00 CET

The online matchmaking event brings together companies and other organisations (buyers as well as suppliers) **from all over Europe and beyond.**

From the 2nd edition of the event, 90% of the 199 participants from 40 countries indicated that they would participate in a

3rd edition. 13% of the rated meetings had resulted in a cooperation, and 44% of the rated meetings had possibilities for cooperation. This is a **unique opportunity to generate new business contacts and contracts.**

The meetings will take place online and will be arranged in advance by means of the website.

- **REGISTER NOW** and don't miss this unique opportunity to generate
- new business contacts,
- meet potential cooperation partners and technology providers

The event is organised in collaboration with Enterprise Europe Network.
